Newcastle Community Centre is looking to increase their volunteer pool. We have several roles where we are looking for additional support, for example, helping or managing events, marketing, fundraising, assistance in areas of painting, diy, carpentry, planning cultural events and outings, book club, supervising/organising juniors, planning, landscaping, community gardening, communications. You can decide how much time you can commit to volunteering and in which area you might have an interest.

In return you get the opportunity to get involved and make a difference in your community, help others, make new friends, informed on local matters and gain work experience.

If you are interested and want to discuss what is involved, contact Diana James at 086 8325711 for a chat.
